Hi Brett, Today (Dec 12, 2011) I sent and copied you on the draft version of YKDFN-New Nadina Engagement Agreement but I see I neglected to include Stephen Ellis on the list – my apologies. Can you or Todd make sure that it is forwarded on to him please. If that's a problem, I can send it to him but please let me know if I need to do this.

Yes, I appreciate your accommodating us as per the Sept 20th timeframe, now I hope there is adequate time and this doesn't interfere with WLWB holidays etc. Seems there are always more things to do than time to do it in and I really appreciate your coaching us in this. I will be happy if/when it is completed.
Have a good day,
Regards, Ellen

Hi Ellen,

Thanks for the update. The timeline identified in the WLWB's direction provided on September 20, 2011 was primarily for the benefit of New Nadina, recognizing that work is planned for winter/spring 2012. As you know, New Nadina's storage authorization is due to expire January 31, 2012 and, prior to that date, the WLWB will need sufficient time to review the engagement activities that have been conducted and any agreement or engagement plan that is in place.

Regards,
Brett

Hi Brett and all,
I did meet with Todd during the Geoscience in November and we discussed the engagement letter which I have a copy under review at the current time. At the Monument property, although New Nadina is the operator, we have two Joint Venture partners – we require all to be in agreement prior to getting back to Todd with the final Engagement agreement. We are addressing it but I apologize that due to availability and response of the partners it has not yet happened. We are hoping it will be end of next week – will this cause a problem?
Regards, Ellen

Hi Arlene/Ellen

Last I heard Ellen was planning to meet with Todd Slack on Tuesday November 15.

Please provide an update regarding the WLWB's direction provided on September 20, 2011:

> "The further studies hereby ordered by the WLWB are to include:
> 1. Engagement with the Akaitcho Dene First Nations, in particular, respecting use by members of an Akaitcho Territory Dene First Nation of the land which is subject to the application and of adjacent land and water that may be affected by the application; and
> 2. Engagement with other affected parties.
>
> The scope of this engagement, including an engagement plan and schedule, should be agreed upon between New Nadina and the engaged parties and this information must be provided to the WLWB by November 15, 2011."

Thanks in advance,
Brett
