Dear Mr. Fequet,

Re: Wekweeti Bridge
Land Use Permit – W2011F0006
Request for Comments

The Department of Environment and Natural Resources (ENR) has determined additional time is required to review and study the environmental effects of the application at reference; therefore, ENR respectfully requests an extension to January 5th 2012 for the Land Use Permit at reference. The additional time will enable ENR to perform a more thorough review of the above application.

If you have any questions or concerns, please do not hesitate to contact me at 920-6118 or email at patrick_clancy@gov.nt.ca.

Sincerely,

Patrick Clancy

Afternoon Patrick,

Please be advised that at this time Board staff cannot allow any extensions on the submission of comments for the Land Use Permit Application for the Wekweèti Bridge Project. We would like to note that this Land Use Permit application is only for the use of a drill (rather than a pile-driver), namely, the use of a power-driven earth drilling machine as required by MYLUR 4.b.i. and 5.b.i., as all other activities associated with this project were reviewed as part of the Water Licence Application.

We would also like to note that GWNT-ENR had no comments on the activities associated with the Water Licence for this Project, as indicated by the August 22nd, 2011 letter (attached).

If you have any questions, please feel free to contact WLWB staff if you have any questions.

Cheers,
