I gave it a read but really have no comment other than this could have been avoided if they submitted the application in the spiring when the inspector reminded them of their expiry.

They (DOT) seem to constantly want us to go that extra mile for them and it is definitely getting frustrating.

How does a 120 year extension sound?

Thanks for keeping me in the loop though.

Cheers

Good morning Mike,

I have attached a link from our registry where GNWT-DOT has made a request to extend their water licence to allow time for the renewal to be issued. Could you please take a look at the request and provide any comment that you may have. I would like this to go before the board on September 2 which means that I should have had my report done yesterday...(darn holidays got in the way) so if you could have your comment to me as soon as possible that would be great.
