Dear Mr. Edgerton:

**Water Licence Application – Incomplete  
Sewage Lagoon and Solid Waste Facility - Hamlet of Enterprise**

Your Water Licence Application, received on November 26, 2008, has been reviewed and found to be lacking sufficient information to conduct a preliminary screening. In order for this application to be considered complete and forwarded for review, the following information must be submitted to our office:

1. Attach a detailed scale plan drawing(s) of the proposed sewage treatment system. The drawings(s) must be stamped by an engineer registered in the NWT and include the following:
  - a. details of pond size and elevation;
  - b. precise details of all retaining structures (dimensions, materials of construction, etc.);
  - c. details of the drainage basin, and existing and proposed drainage modifications;
  - d. details of all decant, siphon mechanisms etc. including sewage treatment facilities;
  - e. details regarding the direction and route followed by wastewater flow from the area;
  - f. indications of the distance to nearby major water courses, and fish bearing waters;
  - g. location and construction of liners;
  - h. leachate and groundwater collection systems; and
  - i. control structures.
  
2. Attach a detailed scale plan drawings of the proposed solid waste disposal area. The drawings must include the following:
  - a. Precise details of all retaining structures (dimensions, materials of construction, etc.)

- b. Details of the drainage basin, and existing and proposed drainage modifications;
  - c. details regarding direction and route followed by wastewater flow from the area;
  - d. indications of the distance to nearby major watercourses, and fish bearing waters;
  - e. all sources of seepage presently encountered in the vicinity of these areas;
  - f. the volume of seepage flow (m<sup>3</sup>/day); and
  - g. the direction of each flow.
3. Attach the proposed contingency plan which will be used for each portion of waste control system in the event it fails to operate properly.
  4. Attach the proposed spill contingency plan which will be employed in case a spill of hazardous materials occurs. Describe courses of action, mitigative methods and equipment available for use.
  5. Please describe the sewage discharge control system.
  6. Will the solid waste facility be accepting hazardous wastes?

This supplementary information must be provided within 90 (ninety) days otherwise it will be assumed that you do not wish to continue processing your application. Upon receipt of this information, the application will be processed and reviewed as per the *Mackenzie Valley Resource Management Act* and the *Northwest Territories Waters Act*. For further assistance, please refer to the document "Guide for Completing Water Use Applications to the Mackenzie Valley Land and Water Board" which can be found on our website at [www.mvlwb.com](http://www.mvlwb.com).

If you have any further questions please phone (867) 669-0506 or email [permits@mvlwb.com](mailto:permits@mvlwb.com).

Yours sincerely,

Tyree Mullaney  
Regulatory Officer
