**Re: Hamlet of Enterprise – Phase I Environmental Site Assessment for the Solid Waste Facility**

On behalf of Environment Canada (EC), I have reviewed the information submitted to the Mackenzie Valley Land and Water Board in compliance with the terms and conditions in the Type B Water Licence. The following specialist advice has been provided pursuant to Environment Canada's mandated responsibilities under the *Canadian Environmental Protection Act*, Section 36(3) of the *Fisheries Act*, the *Migratory Birds Convention Act*, and the *Species at Risk Act*.

EC supports the recommendations put forward by FSC Architects & Engineers to carry out a Phase II Environmental Site Assessment in order to identify if persistent and/or toxic contaminants exist and their approximate location.

Please do not hesitate to contact me at (867) 669-4772 or [savanna.levenson@ec.gc.ca](mailto:savanna.levenson@ec.gc.ca) with any questions or comments with regards to the foregoing.

Yours truly,
