Subject: RE: City of Yellowknife - Plan Submission Dates Modifications, AANDC-WRD Comments

Hi Jeanne,

I wanted to provide clarification on one of AANDC's comments recently submitted regarding the City of Yellowknife's request to modify plans submission dates associated with their WL MV2009L3-0007.

AANDC wrote: Requirement D.14 of the water licence requested the submission of a revised solid waste disposal facilities drainage study 18 months following issuance of the water licence, therefore by November 31st, 2011. It is unclear if this item was submitted as it did not appear to be available on the City's water licence webpage of the MVLWB website. It should be clarified whether or not requirement D.14 of the water licence was submitted to the Board. If not submitted, the proponent should provide a date by which this submission will occur.

The City did in fact request an extension to the deadline for this study on Nov. 14, 2011. The request was forwarded to the Inspector for comment and on Nov. 24 the Board approved an extension to Feb. 29, 2012. This information was posted on the website, but was hard to find. I have placed it into section 5 – Reports and Studies, Landfill Drainage Study . The initial extension request from the City on Nov. 14 was not posted for some reason, so I have requested that it be posted again.

I apologize for any confusion regarding the status of this study.

Miki
