Mr. Jason Ash
De Beers Canada Inc.
Suite 300, 5102-50th Ave.
YELLOWKNIFE NT X1A 3S8

Fax: (867) 767-8963

Dear Mr. Ash:

**Issuance of Type A Land Use Permit
Diamond Mining, Snap Lake, NT**

Attached is Land Use Permit MV2010D0053 granted by the Mackenzie Valley Land and Water Board (MVLWB) in accordance with the *Mackenzie Valley Resource Management Act*. The MVLWB has approved this Permit for a period of 5 years commencing February 16, 2011 and expiring February 15, 2016.

Please read all conditions carefully making particular note of Land Use Permit conditions 53 through 55 regarding the posting of a security deposit. Pursuant to section 32 of the Mackenzie Valley Land Use Regulations, a deposit, **payable to the Receiver General for Canada** in the amount of \$18,360,819.00, shall be posted with Indian and Northern Affairs Canada, #16 Yellowknife Airport, Yellowknife, NT, X1A 3T2. Attention: District Manager, South Mackenzie District. Please copy to the MVLWB office prior to the start of your operation.

A copy of all related correspondence and documents has been filed on the Public Registry at the office of the MVLWB. Please be advised that this letter, its attached procedures, inspection reports, and related correspondence is part of the Public Registry and is intended to keep all interested parties informed of the manner in which the Permit's requirements are being met. All Public Registry material will be considered if an amendment to the Permit is requested.

The full cooperation of De Beers Canada Inc. is anticipated and appreciated. If you have any questions or concerns, please telephone (867) 669-0506 or email permits@mvlwb.com.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Willard Hagen', with a stylized flourish at the end.

Land Use Permit

Permit Class	Permit No	Amendment No
A	MV2010D0053	

Subject to the Mackenzie Valley Land Use Regulations and the terms and conditions in this Permit, authority is hereby granted to:

De Beers Canada Inc.

Permittee

to proceed with the land use operation described in the application of:

Signature Mr. Chantal Lavoie	Date October 29, 2010
Type of Land Use Operation Diamond Mining	
Location Snap Lake, NT	

This Permit may be assigned, extended, discontinued, suspended, or cancelled pursuant to the Mackenzie Valley Land Use Regulations.

Dated at Yellowknife this 16th day of February, 2011

Signature Chair

A handwritten signature in black ink, appearing to be "M. Lavoie".

Signature Witness

A handwritten signature in black ink, appearing to be "A. ...".

Commencement Date

February 16, 2011

Expiry Date

February 15, 2016

ATTENTION

It is a condition of this Permit that the Permittee comply with the provisions of the *Mackenzie Valley Resource Management Act* and Regulations and the terms and conditions set out herein. A failure to comply may result in suspension or cancellation of this Permit.

Conditions Annexed to and Forming Part of Land Use Permit # MV2010D0053

Part A: Scope of Permit

1. This Permit entitles DeBeers Canada Inc. (De Beers or the Permittee) to conduct the following activities associated with diamond mining and milling production as outlined in the Land Use Application dated October 29, 2010 and the Consolidated Project Description, submitted by De Beers on November 24, 2003 (shown specifically in Figures 3 and 5) and summarized below.

De Beers may conduct mining and associated activities at the Snap Lake Diamond Mine site (63°35'30" N, 110°52'00" W) including:

- i. The extraction of waste rock and ore from the Snap Lake Diamond Mine;
 - ii. The development and operation of Site Facilities (including the airstrip);
 - iii. The storage of fuel;
 - iv. The development and progressive Reclamation of the North Pile;
 - v. The Construction and maintenance of site roads and lay down areas;
 - vi. The quarrying of materials from specified areas;
 - vii. Maintenance and operation of the winter road to the Snap Lake Mine Site from the Tibbett-Contwoyto winter road, this also includes the winter access road to the Esker quarry site; and
 - viii. Progressive closure and Reclamation of site components.
2. The Permit is issued subject to the conditions contained herein with respect to the use of land for the activities and area identified in Part A, item 1 of this Permit.
 3. Compliance with the terms and conditions of this Permit does not absolve the Permittee from the responsibility for compliance with the requirements of all applicable federal, territorial, and municipal legislation.

Part B: Definitions

"Act" means the *Mackenzie Valley Resource Management Act*.

"Accepted Application" means the application, dated October 29, 2010, and supporting documentation submitted by De Beers for the Snap Lake Diamond Mine; including the original application and scoping documents submitted February 2, 2001 for Land Use Permit MV2001C0012, and the Consolidated Project Description submitted November 24, 2003;

"Amendment" means any change, addition, or deletion to this Land Use Permit that is within the scope of this Land Use Permit;

"Artesian Well" means a water-bearing stratum, which when encountered during drilling operations, produces a pressurized flow of groundwater that reaches an elevation above the ground surface.

"Board" means the Mackenzie Valley Land and Water Board established under Part 4 of the *Mackenzie Valley Resource Management Act*.

“Consolidated Project Description” means the document that was submitted by De Beers on November 24, 2003 and resubmitted with the Accepted Application. This serves as an update to the original MV2001C0012 Land Use Permit Application and scoping documents that were submitted February 2, 2001; it incorporates information from the Environmental Assessment process.

“Construction” means any activities undertaken to construct or build any components of, or associated with, the development of the Snap Lake Diamond Mine.

“Drill Waste” means all materials or chemicals, solid or liquid, associated with the drilling of boreholes and includes borehole cuttings.

“Esker” means the Esker (deposition from a glacial stream) referred to in the Consolidated Project Description (pg. 35). This Esker is located nine kilometres from the Project site and was previously used as a gravel source during the advanced exploration program.

“Fuel Storage Facilities” means the Fuel Storage Facilities as described in Land Use Permit Application MV2010D0053.

“Greywater” means all liquid Wastes from showers, baths, sinks, kitchens, and domestic washing facilities but does not include Toilet Wastes.

“Inspector” means an Inspector designated by the Minister under the *Mackenzie Valley Resource Management Act*.

“Minister” means the Minister of Indian Affairs and Northern Development.

“North Pile” means the above-ground facility designated for the storage of Processed Kimberlite and other waste materials.

“Processed Kimberlite” means material rejected from the process plant after the recoverable minerals have been extracted.

“Project” means the Snap Lake Diamond Project as outlined in the Snap Lake Diamond Project Developers Assessment Report submitted by De Beers Canada Mining Inc. to the Mackenzie Valley Environmental Impact Review Board February 18, 2002, and updated in the Consolidated Project Description submitted to the Board on November 24, 2003, comprising an underground mine and surface processing facilities, surface waste containment, water collection and treatment facilities, and other infrastructure.

“Reclamation” means the process of restoring disturbed land to its former or other productive uses.

“Regulations” means the *Mackenzie Valley Land Use Regulations* proclaimed pursuant to Section 59, subsection 72(3) and sections 86 and 90 of the *Mackenzie Valley Resource Management Act*.

“Sewage” means all toilet wastes and Greywater.

“Site Facilities” means the facilities shown in Figure 4 of the Consolidated Project Description, November 24, 2003, which was submitted as part of Land Use Permit Applications MV2001C0012 and MV2010D0053.

“Sump” means a man-made pit, or natural hollow or cavity in the earth's surface used for the purpose of depositing waste material therein.

“Waste” means Waste as defined by section 2 of the *Northwest Territories Waters Act*.

“Water Licence” means MV2001L2-0002 and any subsequently issued Licence to De Beers for the Snap Lake Project.

“Wildlife Effects Monitoring Program” means a monitoring program designed to determine the short-and long-term effects to wildlife resulting from the Project, to evaluate the accuracy of impact predictions, to assess the effectiveness of planned impact mitigation measures and to identify additional impact mitigation measures to reduce or eliminate environmental effects and the Snap Lake Diamond Mine's contribution to cumulative effects.

Part C: Conditions Applying to All Activities

26(1)(a) Location and area

1. The Permittee shall not conduct this land use operation on any lands not designated in the Accepted Application. PLANS
2. The Permittee shall use an existing camp site. CAMP LOCATION
3. The Permittee shall not locate any Sump within 50 metres of the ordinary high water mark of any water body, unless otherwise authorized in writing by the Inspector. SUMP LOCATION
4. The Permittee shall not construct an adit or drill site within 100 metres of the ordinary high water mark of a water body, unless otherwise authorized in writing by the Inspector. LOCATION OF ADITS AND DRILLSITES
5. When the Permittee is drilling within 100 metres of the ordinary high water mark of a water body, they must employ a closed circuit drilling system and ensure that cuttings do not enter any water body. LOCATION OF DRILLSITES
6. Prior to the commencement of diamond drilling, the Permittee shall submit to the Inspector and the Board proposed drill targets on a 1:50,000 scale map. DRILL LOCATIONS
7. The Permittee shall locate all lines, trails, and right-of-ways to be constructed parallel to water bodies a minimum of 30 metres from the ordinary high water mark except at crossings, unless otherwise authorized in writing by the Inspector. PARALLELING STREAMS

- | | | |
|--------------------------|---|---|
| 8. | The Permittee shall submit to the Board a Quarry Management Plan which includes an assessment of ground ice conditions in the Esker prior to initiating excavation activities. | QUARRY
MANAGEMENT
PLAN |
| 9. | The Permittee shall not conduct a quarry operation within 100 metres of the ordinary high water mark of any water body, unless otherwise authorized in writing by the Inspector. | LOCATION OF
QUARRY
OPERATION |
|
26(1)(b) Time | | |
| 10. | The Permittee's Field supervisor shall contact an Inspector at (867) 669-2763 at least 48 hours prior to commencement of any land use operation which could cause foreseeable environmental impact(s). | CONTACT
INSPECTOR |
| 11. | The Permittee's Field Supervisor shall contact an Inspector at (867) 669-2763 at least 48 hours prior to the commencement of this land use operation and shall provide in writing the following information:
a) Name(s) of the person(s) in charge of the field operation to whom notices, orders, and reports may be served;
b) Alternates; and
c) All methods for contacting the above person(s). | IDENTIFY AGENT |
| 12. | The Permittee shall submit to the Board and the Land Use Inspector, for approval, a minimum of 60 days prior to the start of Construction of any dams, dykes, or structures intended to contain, withhold, divert or retain water or wastes, design drawings stamped by a Geotechnical Engineer. The Permittee shall ensure that such facilities are designed and constructed to engineering standards such that at a minimum they comply with the Dam Safety Guidelines. | APPROVAL OF
CONSTRUCTION
DRAWINGS |
| 13. | The Permittee shall submit in writing to the Board and the Inspector, notification prior to commencing any new Construction activities. A schedule of activities is to be included. Additional notification is required prior to commencing Construction of any of the engineered structures described in Condition 12. | PRIOR
NOTIFICATION
OF
CONSTRUCTION |
| 14. | The Permittee shall submit to the Board, within 90 days of completion of Construction of all the engineered structures described in Condition 12, as built drawings. | SUBMISSION OF
AS-BUILTS |
| 15. | The Permittee shall submit in writing to the Board and the Inspector, all modification requests a minimum of 45 days prior to the proposed modification commencing. | PRIOR
NOTIFICATION |
| 16. | The Permittee shall submit, for Board approval, updates to the existing Ore Storage, Waste Rock and Processed Kimberlite Management Plan and the Waste Management Plans, within one year of issuance of this permit. | PLANS FOR
APPROVAL |

17. The Permittee shall remove all snow fills from stream crossings prior to spring break-up or completion of the land use operation unless otherwise authorized in writing by the Inspector. REMOVE SNOW FILLS

18. The Board and/or Inspector reserve the right to impose closure of any area to the Permittee in periods when dangers to natural resources are severe. CLOSURE

26(1)(c) Type and size of equipment

19. The Permittee shall not use any equipment except of the type, size, and number that is listed in the Accepted Application unless otherwise authorized in writing by the Inspector and notification has been provided to the Board. ONLY APPROVED EQUIPMENT

26(1)(d) Methods and techniques

20. The Permittee shall minimize the footprint of the Snap Lake Diamond Mine to the extent possible and shall not disturb areas larger than identified in the Accepted Application unless otherwise authorized in writing by the Inspector and approved by the Board. MINIMIZE FOOTPRINT

21. The Permittee shall construct and maintain winter roads with a minimum of 10 centimetres packed snow at all times during this land use operation. If this cannot be done, the Permittee shall construct ice roads in a manner authorized in writing by the Inspector. SNOW ROADS/ ICE ROADS

22. The Permittee shall remove or cut off and seal all drill casings at ground level immediately upon completion of drilling or other downhole activities (i.e. geophysical logging, water level measurements, water sampling). REMOVAL AND SEALING OF DRILL CASINGS

26(1)(e) Type, location, capacity, and operation of all facilities

23. The Permittee shall maintain freeboard of at least 1 metre in all Sumps. FREEBOARD OF SUMPS

24. The Permittee shall ensure that the land use area is kept clean at all times. CLEAN WORK AREA

26(1)(f) Control or prevention of ponding of water, flooding, erosion, slides, and subsidence of land

25. a) The Permittee shall, where flowing water from bore holes is encountered, plug the bore hole in such a manner as to permanently prevent any further outflow of water; and b) Report the artesian occurrence to the Inspector immediately. PLUG ARTESIAN WELLS

26.	The Permittee shall slope the sides of excavations and embankments, except in solid rock, to a horizontal/vertical ratio of 2 horizontal to 1 vertical.	EXCAVATIONS AND EMBANKMENTS
27.	The Permittee shall slope the sides of waste material piles to a gradient specified in writing by the Inspector.	WASTE MATERIAL PILES
28.	The Permittee shall not cut any stream bank.	STREAM BANKS
29.	The Permittee shall not use any material other than water in the Construction of ice bridges.	ICE BRIDGE MATERIALS
30.	The Permittee shall not allow any ice bridge to hinder the flow of water.	ICE BRIDGE
31.	The Permittee shall not use any material other than clean snow in the Construction of snow fills.	SNOW FILLS
32.	The Permittee shall ensure that vehicle travel is restricted to site roads unless otherwise authorized in writing by the Inspector.	TRAVEL RESTRICTED TO SITE ROADS
33.	The Permittee shall suspend overland travel of equipment or vehicles at the first sign of rutting.	SUSPEND OVERLAND TRAVEL
26(1)(g) Use, storage, handling, and ultimate disposal of any chemical or toxic material		
34.	The Permittee shall not use chemicals in connection with the land use operation that were not identified in the Accepted Application without the submission of associated MSDS sheets, written authorization for use by the Inspector and prior notification to the Board.	APPROVAL OF CHEMICALS
35.	The Permittee shall deposit all non-toxic Drill Waste into a Sump.	DRILL WASTE
36.	The Permittee shall remove all Drill Waste from ice surfaces.	DRILL WASTE DISPOSAL
37.	The Permittee shall not allow any Drill Waste to spread to the surrounding lands.	DRILL WASTE CONTAINMENT
38.	When drilling on ice, the Permittee shall use a closed circuit drilling system and shall dispose of cuttings into a land-based Sump.	DRILLING ON ICE
39.	The Permittee shall dispose of all combustible waste petroleum products by incineration or removal.	WASTE PETROLEUM DISPOSAL
40.	The Permittee shall dispose of all toxic or persistent substances to an approved disposal facility or as otherwise authorized in writing by the Inspector.	WASTE CHEMICAL DISPOSAL

- | | | |
|-----|---|---|
| 41. | The Permittee shall report spills immediately to the 24-hour Spill Report Line, (867) 920-8130, in accordance with instructions contained in the "NT-NU Spill Report" form. | REPORT
CHEMICAL AND
PETROLEUM
SPILLS |
|-----|---|---|

26(1)(h) Wildlife and fish habitat

- | | | |
|-----|--|-----------------------------------|
| 42. | The Permittee shall, by March 31 of each year, submit to the Board a report on the activities and results of its Wildlife Effects Monitoring Program that have taken place over the previous year. | WILDLIFE
EFFECTS
MONITORING |
|-----|--|-----------------------------------|

- | | | |
|-----|---|------------------------|
| 43. | The Permittee shall ensure that all employees, contractors and visitors are aware that they shall not, and do not, feed wildlife. | NO FEEDING
WILDLIFE |
|-----|---|------------------------|

- | | | |
|-----|---|--------------------------------|
| 44. | The Permittee shall use food handling and garbage disposal procedures that do not attract wildlife, as per the Domestic Waste and Sewage Management Plan submitted as part of the Accepted Application. | WILDLIFE/
HUMAN
CONFLICT |
|-----|---|--------------------------------|

- | | | |
|-----|---|---------------------------|
| 45. | The Permittee shall ensure that all employees, contractors and visitors are aware that they shall not, and do not harass wildlife during this land use operation, as defined in subsection 38(1) of the Northwest Territories <i>Wildlife Act</i> . | NO WILDLIFE
HARASSMENT |
|-----|---|---------------------------|

- | | | |
|-----|---|-------------------|
| 46. | The Permittee shall minimize damage to wildlife and fish habitat in conducting this land use operation. | HABITAT
DAMAGE |
|-----|---|-------------------|

- | | | |
|-----|---|-----------------------|
| 47. | The Permittee shall not obstruct the movement of fish while conducting this land use operation. | FREE FISH
MOVEMENT |
|-----|---|-----------------------|

- | | | |
|-----|---|-------------------------|
| 48. | The Permittee shall place the bottoms of all culverts installed in streams inhabited by fish at a level that maintains the natural contour of the stream. | CULVERT
INSTALLATION |
|-----|---|-------------------------|

- | | | |
|-----|---|------------------|
| 49. | The Permittee shall use culverts of a size that will ensure the velocity of the stream flow is not increased. | CULVERTS
SIZE |
|-----|---|------------------|

26(1)(i) Storage, handling, and disposal of refuse or Sewage

- | | | |
|-----|--|--------------------|
| 50. | The Permittee shall dispose of all Sewage and domestic Waste as outlined in the Domestic Waste and Sewage Management Plan submitted as part of the Accepted Application. | SEWAGE
DISPOSAL |
|-----|--|--------------------|

- | | | |
|-----|--|--------------------------------|
| 51. | The Permittee shall dispose of all hazardous Waste as outlined in the Hazardous Materials Management Plan submitted as part of the Accepted Application. | HAZARDOUS
WASTE
DISPOSAL |
|-----|--|--------------------------------|

- | | | |
|-----|--|-------------------|
| 52. | The Permittee shall remove all non-combustible garbage and debris, including plastics, from the land use area to a disposal site as specified in the Accepted Application. | REMOVE
GARBAGE |
|-----|--|-------------------|

- | | | |
|-----|--|---------------------------|
| 53. | The Permittee shall keep all garbage and debris in a covered metal container on site until disposal. | GARBAGE
CONTAINER |
| 54. | The Permittee shall use a forced-air, fuel-fired incinerator to burn all combustible garbage except plastics. The Permittee shall select a unit that is capable of meeting an emission concentration limit on dioxans and furans of 80 pg TEQ/m ³ . | INCINERATORS |
| 55. | The Permittee shall dispose of all scrap metal, discarded machinery, parts, tires, barrels, kegs, plastics, and building materials as specified in the Accepted Application or as otherwise authorized in writing by the Inspector. | DEPOSIT WASTE
MATERIAL |

26(1)(j) Protection of historical, archaeological, and burial sites

- | | | |
|-----|--|------------------------------|
| 56. | The Permittee shall not operate any vehicle within 30 metres of a known or suspected archaeological site unless otherwise authorized in writing by the Inspector. | OPERATE
VEHICLE |
| 57. | The Permittee shall not knowingly remove, disturb, or displace any archaeological specimen or site. | DISTURBANCE
OF SITE |
| 58. | Should a suspected historical or archaeological site or burial ground be discovered, the Permittee shall immediately suspend operations on the site or burial ground and notify the Mackenzie Valley Land and Water Board at (867) 669-0506 and the Inspector. | CONTACTS |
| 59. | The Permittee shall ensure that all persons working under authority of the Permit are aware of these conditions concerning archaeological land use activity. | NOTIFICATION
TO EMPLOYEES |

26(1)(k) Objects and places of recreational, scenic, and ecological value.

Intentionally left blank.

26(1)(l) Security deposit

- | | | |
|-----|---|--|
| 60. | The Permittee shall post and maintain, with the Minister, a security deposit in the amount of \$18,360,819.00 pursuant to section 32 of the Regulations. | SECURITY
DEPOSIT |
| 61. | Prior to the placement of Processed Kimberlite into the East Cell of the North Pile, the Permittee shall have posted and shall maintain an additional security deposit of \$1,518,026.00 to address the estimated increase in total land related liability resulting from development of the East Cell. | EAST CELL
SECURITY FOR
LAND RELATED
LIABILITY |

- | | | |
|-----|---|--|
| 62. | Prior to the placement of Processed Kimberlite into the West Cell of the North Pile, the Permittee shall have posted and shall maintain an additional security deposit of \$1,156,826.00 to address the estimated increase in total land related liability resulting from development of the West Cell. | WEST CELL
SECURITY FOR
LAND RELATED
LIABILITY |
| 63. | The security deposits set out in conditions 59 through 61 shall be in a form acceptable to the Minister and shall be maintained until such a time as they are fully or in part refunded by the Minister pursuant to Section 71 of the Act. | SECURITY
ACCEPTABLE TO
MINISTER |
| 64. | The Permittee shall be liable for any cost of damage over and above the amount of the security deposits. | LIABILITY FOR
DAMAGE |
| 65. | If there is an increase in the total land related liability beyond the amounts set out in conditions 59 through 61 then the Board may increase the amount of security required. If there is a reduction in the total land related liability due to progressive Reclamation or alteration of the Project development plans, the applicant may apply to the Board for a reduction in the amount of security required. | INCREASE/
DECREASE
LAND LIABILITY |
| 66. | The security posted with the Minister under conditions 59 through 61 may at final abandonment, either at termination or expiry of this Permit, be drawn down by the Minister to remedy any damage or default or to carry out any Reclamation necessary under the Permittee's approved Closure and Reclamation Plan filed under the Water Licence. | SECURITY
ACCESSIBLE TO
MINISTER |
| 67. | At any time during the term of this Permit, the Minister may draw down and use all or part of the security posted under conditions 59 through 61 if the Permittee, after receiving written notice from an Inspector of a serious or imminent danger to persons, property or the environment arising from the Permittee's actions under this Permit, has not within a reasonable time taken the necessary steps to counteract, mitigate or remedy any resulting adverse effects on persons, property or the environment. | SECURITY FOR
SERIOUS OR
IMMINENT
DANGER |
| 68. | In the event that the Permittee is adjudged or declared bankrupt or insolvent or makes an assignment for the benefit of creditors or petitions, or makes a proposal in bankruptcy or applies to any tribunal for the appointment of a receiver or trustee for any substantial part of its property, or commences any proceedings in order to make a reorganization, arrangement or readjustment of debt, dissolution or liquidation under any law in any jurisdiction whether now or hereafter in effect, the Minister shall immediately be deemed to be entitled to the full amount of the security held under this Permit without the need for any notice or demand. The Minister may use the said security to carry out: | SECURITY
PROVISION IN
THE CASE OF
BANKRUPTCY |

- a) Any Reclamation required but incomplete under the Permittee's approved Closure and Reclamation Plan filed under the Water Licence; and
- b) Any work necessary in the Minister's opinion to remedy or counteract any serious or imminent danger to persons, property or the environment which has resulted from the Permittee's actions under this Permit.

26(1)(m) Fuel storage

69.	The Permittee shall locate all fuel storage containers within the Fuel Storage Facilities, unless otherwise authorized in writing by the Inspector.	FUEL STORAGE FACILITIES
70.	The Permittee shall maintain a dyke around the Fuel Storage Facilities. The Permittee shall ensure that the dyke and the area enclosed by the dyke shall be impermeable to petroleum products at all time.	DYKE FUEL STORAGE FACILITIES
71.	The volume of the dyked area shall be 10 percent greater than the capacity of the largest fuel container placed therein.	CAPACITY
72.	A certified double-walled tank will be deemed to satisfy requirements of an impermeable dyke.	DOUBLE-WALLED TANK
73.	The Permittee shall locate mobile fuel facilities on land when stationary for any period of time exceeding 12 hours.	FUEL ON LAND
74.	The Permittee shall not allow petroleum products to spread to surrounding lands or into water bodies.	FUEL CONTAINMENT
75.	The Permittee shall: <ul style="list-style-type: none"> a) Examine all fuel storage containers for leaks a minimum of once every day; and b) Repair all leaks immediately. 	CHECK FOR LEAKS
76.	The Permittee shall mark all stationary petroleum products storage facilities with flags, posts, or similar devices so that they are at all times plainly visible to local vehicle travel.	MARK FUEL LOCATION
77.	The Permittee shall mark all fuel containers, including 45-gallon drums, with the Permittee's name.	MARK CONTAINERS
78.	The Permittee shall submit for approval to the Board an updated emergency response plan and spill contingency plan in accordance with Indian and Northern Affairs Canada's 2007 "Guidelines for Spill Contingency Planning" within one year of issuance of this permit.	SPILL CONTINGENCY/ EMERGENCY RESPONSE PLAN

79. The Permittee shall submit for approval to the Board an update of the Emergency Response Plan and Spill Contingency Plan in accordance with Indian and Northern Affairs Canada's 2007 "Guidelines for Spill Contingency Planning" if there are any changes in the operation during the life of the Permit.

CONTINGENCY
PLAN

80. The Permittee shall ensure that adequate contingency plans and spill kits are in place, prior to commencement of operations, to respond to any potential spills.

SPILL
RESPONSE

26(1)(n) Methods and techniques for debris and brush removal

Intentionally left blank.

26(1)(o) Restoration of the lands

81. The Permittee shall submit to the Board, for approval, an updated Closure and Reclamation Plan including proposed Reclamation completion criteria in accordance with Indian and Northern Affairs Canada's 2007 "Mine Site Reclamation Guidelines for the Northwest Territories" or any subsequent editions within one year of issuance of this Permit.

CLOSURE AND
RECLAMATION
PLAN

82. The Permittee shall implement the Closure and Reclamation Plan as approved by the Board in accordance with the schedules and procedures specified in the Plan and endeavour to carry out progressive Reclamation of Project areas as soon as is reasonably practicable.

IMPLEMENT
CLOSURE AND
RECLAMATION
PLAN

26(1)(p) Display of permits and permit numbers

83. The Permittee shall keep on hand, at all times during this land use operation, a copy of the Permit.

COPY OF
PERMIT

26(1)(q) Matters not inconsistent with the Regulations

84. The Permittee shall ensure that all persons working under the authority of this Permit are aware of and will adhere to the conditions as stated in this Permit.

NOTIFICATION
TO ALL
EMPLOYEES/
CONTRACTORS

85. The Permittee shall not conduct activities related to any Amendments to this Permit until the Board approves the Amendments. The Permittee shall submit all Amendment requests to an Inspector and to the Board, for approval, prior to commencement of the proposed amended activity(ies).
