Dear A/Chief Balsillie;

Re: Quarrying Applications, NWT Highway #5

Thank you for your request to meet with your council, however at the current time we do not have monies budgeted for travel and presentation time for any of the large number of councils and communities we are required to notify of our gravel applications.

We do wish to ensure however that no concerns regarding our application are left unanswered. If the council would like to put together a list of any comments or concerns they may have regarding our application we would be more than happy to respond either via writing or through a telephone conference call.

We trust this will serve as an adequate form of communication, as it is the standard we use to consult on our application with other affected parties.

Please forward any correspondence to me at the above address, or to my email at melanie@carterindustries.ca

Yours sincerely;

Melanie Carter
Office Manager
Carter Industries Ltd.
