Dear Mr. Reiffenstein:

**Issuance of Type B Water Licence
Municipal - Akaitcho Region and Wek'eezhii Management Area**

Attached is Water Licence MV2012L3-0002 granted by the Mackenzie Valley Land and Water Board (MVLWB or the Board) in accordance with the *Northwest Territories Waters Act*. A copy of this Licence has been filed on the Public Registry at the MVLWB office. Water Licence MV2012L3-0002 has been approved for a period of 1 year commencing January 27, 2012 and expiring January 26, 2013. Also attached is a copy of the "General Procedures for the Administration of Licences in the Northwest Territories". Please review these carefully and address any questions to the Board's office.

This letter, with attached procedures, all inspection reports, and correspondence related thereto, is part of the Public Registry and is intended to keep all interested parties informed of the manner in which the Licence's requirements are being met. All Public Registry material will be considered if an amendment to the Licence is requested.

Your full cooperation is anticipated and appreciated. If you have any questions or concerns, please contact Tyree Mullaney at (867) 766-7464 or email tyree@mvlwb.com.

Yours sincerely,

Part A: Scope and Definitions

Scope

This Licence entitles CFB/ASU Edmonton to use Water and dispose of Waste for municipal undertakings in the Northwest Territories.

This Licence is issued subject to the conditions contained herein with respect to the taking of Water and the depositing of Waste of any type in any Waters or in any place under any conditions where such Waste or any other Waste that results from the deposits of such Waste may enter any Waters. Whenever new Regulations are made or existing Regulations are amended by the Governor in Council under the *Northwest Territories Waters Act*, or other statutes imposing more stringent conditions relating to the quantity or type of Waste that may be so deposited or under which any such Waste may be so deposited, this Licence shall be deemed, upon promulgation of such Regulations, to be automatically amended to conform to such Regulations.

Compliance with the terms and conditions of this Licence does not absolve the Licensee from the responsibility for compliance with the requirements of all applicable federal, territorial, and municipal legislation.

Definitions

In this Licence: MV2012L3-0002

“**Act**” means the *Northwest Territories Waters Act*.

“**Board**” means the Mackenzie Valley Land and Water Board established under Part 4 of the *Mackenzie Valley Resource Management Act*;

“**Inspector**” means an Inspector designated by the Minister under subsection 35(1) of the Act.

“**Licensee**” means the holder of this Licence.

“**Modification**” means an alteration to a physical work that introduces a new structure or eliminates an existing structure and does not alter the purpose or function of the work but does not include an expansion.

“**Regulations**” means Regulations proclaimed pursuant to section 33 of the *Northwest Territories Waters Act*.

“**Sewage**” means all Toilet Wastes and Greywater.

“**Sewage Disposal Facilities**” means a licenced facility in the Northwest Territories.

“**Toilet Wastes**” means all human excreta and associated products but does not include Greywater;

“**Waste(s)**” means Waste as defined by section 2 of the Act.

“**Waste Disposal Facilities**” mean all facilities designated for the disposal of Waste and includes the sewage disposal facilities and Sewage Waste disposal facilities.

“Water(s)” means any Waters as defined by section 2 of the Act.

Part B: General Conditions

- B1. The Licensee shall file a report with the Board not later than April 6, 2012 which shall contain the following information:
 - a) The quantities in cubic metres of fresh Water obtained from all sources;
 - b) The quantities of Waste discharged;
 - c) Locations of discharge;
 - d) A list of unauthorized discharges;
 - e) An outline of any spill training and communications exercises carried out;
 - f) A summary of any closure and reclamation work completed during the operation and an outline of any work anticipated after the operation; and
 - g) Any other details on Water Use or Waste disposal requested by the Board.
- B2. The Licensee shall post signs in the appropriate areas to inform the public of Water Supply and Waste Disposal Facilities.
- B3. The Licensee shall immediately report to the 24-hour Spill Report Line (867 920-8130) any spills of Waste which are reported to or observed by the Licensee within the project area.
- B4. The Licensee shall ensure a copy of this Licence is maintained at the site of operation at all times.

Part C: Conditions Applying to Water Use

- C1. The Licensee shall obtain all Water from sources identified in the accepted application or as otherwise approved by an Inspector.
- C2. The quantity of Water used for all purposes shall not exceed 5 cubic metres per day.
- C3. The Water intake hose used on the Water pumps shall be equipped with a screen with a mesh size sufficient to ensure no entrainment of fish.
- C4. The Licensee shall adhere to DFO’s “Protocol for Winter Withdrawal from Ice Covered Waterbodies in the Northwest Territories”.

Part D: Conditions Applying to Waste Disposal

- D1. The Licensee shall direct all Sewage to the Sewage Disposal Facility identified in the accepted application. If Sewage is to be deposited within other municipalities the Licensee shall contact the respective Inspector and stipulate the maximum quantities of Sewage to be deposited at the specific municipal lagoons. The Licensee shall also acquire municipal approval prior to any deposit.
- D2. The licensee shall not deposit, nor permit the deposit of chemicals, sediment, wastes, or fuels associated with the project into any water body.

Part E: Conditions Applying to Modifications

- E1. The Licensee may carry out Modifications to the planned undertakings:
 - a) Without written approval from the Board, provided that such Modifications are consistent with the terms of this Licence and the Licensee has notified the Board in writing of such Modifications at least five days prior to beginning the Modifications; or
 - b) With the written approval of the Board and under such conditions decided by the Board.

Part F: Conditions Applying to Contingency Planning

- F1. If, during the period of this Licence, an unauthorized discharge of Waste occurs, or if such a discharge is foreseeable, the Licensee shall:
 - a) Employ the appropriate contingency plan;
 - b) Report the incident immediately via the 24-hour NWT Spill Report Line. Currently the number is (867) 920-8130; and
 - c) Submit to an Inspector a detailed report on each occurrence not later than 30 days after initially reporting the event.

Part G: Conditions Applying to Abandonment and Restoration

- G1. The Licensee shall carry out progressive restoration of areas which are abandoned prior to closure of operations.
- G2. The Licensee shall complete the restoration work prior to the expiry of the Licence.

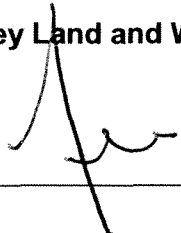

Part H: Conditions Applying to Construction

Intentionally left blank

Part I: Conditions Applying to Operation and Maintenance

- I1. The Licensee shall conduct the operation as identified in the accepted application.

**General Procedures for the Administration of Licences
Issued Under the *Northwest Territories Waters Act*
in the Northwest Territories**

1. At the time of issuance, a copy of the Licence is placed on the Public Registry in the office of the Mackenzie Valley Land and Water Board (MVLWB or the Board) in Yellowknife and is then available to the public.
2. To enforce the terms and conditions of the Licence, the Minister of Aboriginal Affairs and Northern Development Canada has appointed Inspectors in accordance with subsection 35(1) of the *Northwest Territories Waters Act*. The Inspectors coordinate their activities with staff of the MVLWB. The Inspector responsible for Licence MV2012L3-0002 is located in the North Mackenzie District office.
3. To keep the MVLWB and members of the public informed of the Licensee's conformity to the Licence's conditions, the inspectors prepare reports which detail observations on how each item in the Licence has been met. These reports are forwarded to the Licensee with a covering letter indicating which action, if any, should be taken. The inspection reports and cover letters are placed on the Public Registry, as are any responses received from the Licensee pertaining to the inspection reports. It is therefore of prime importance that you react in all areas of concern regarding all inspection reports so that these concerns may be clarified.
4. It is the responsibility of the Licensee to apply to the MVLWB for a new licence. The past performance of the Licensee, new documentation and information, and points raised during a public hearing, if required, will be used to determine the terms and conditions of any new licence. Please note that if the Licence expires and another has not been issued, then water and waste disposal must cease, or you, the Licensee, would be in contravention of the *Northwest Territories Waters Act*. It is suggested that an application for a new licence be made at least eight months in advance of the Licence's expiry date.
5. If, for some reason, Licence # MV2012L3-0002 requires amendment, a public hearing may be required. You are reminded that applications for amendments should be submitted as soon as possible to provide the MVLWB ample time to complete the amendment process. The process may take up to six months or more depending on the scope of the amendment requested.

6. Specific clauses of your Licence make reference to the Board, Analyst, or Inspector. The contact person, address, phone, and fax number of each is:

Reasons for Decision

Preliminary Screener:	MVLWB
Reference/File Number:	MV2012L3-0002
Applicant:	CFB/ASU Edmonton
Project:	Municipal - Akaitcho Region and Wek'èezhii Management Area, NT

Decision from Mackenzie Valley Land and Water Board (the Board) Panel Meeting of

January 27, 2012
Reasons for Decision

Issued pursuant to section 121 of the *Mackenzie Valley Resource Management Act* (MVRMA) and section 26 of the *Northwest Territories Waters Act* (NWTWA)

Application

- The application was submitted to the Board pursuant to section 6 of the NWTWA, and the Board has accepted the application as complete.
- Notice was given in accordance with sections 63 and 64 of the MVRMA and section 23 of the NWTWA.
- There was no public hearing held in association with this application.

Decision

After having been satisfied that the operation had been screened pursuant to the MVRMA, and that:

- Any potential adverse environmental effects were insignificant or mitigable with known technology, and there was no significant public concern, and as such the application could proceed through the regulatory process; and
- After reviewing the submission of the Applicant, the written comments received by the Board, and the Staff Report prepared for the Board; and
- Having due regard to the facts and circumstances, the merits of the submissions made to it, and to the purpose, scope, and intent of the MVRMA and the NWTWA and Regulations made thereunder,

the Board has determined that MV2012L3-0002 be issued subject to the terms and conditions contained therein.

The Board's reasons for this decision are as follows:

Operation

- It is the opinion of the Board that the conditions of MV2012L3-0002 attached, pursuant to the NWTWA, will significantly reduce the potential environmental impacts resulting from water use and/or deposition of waste.
- The operation will likely contribute to the socio-economic well-being and economic development of the region.
- Under section 5 of the NWTWA, the Board has determined the Applicant has been notified of their obligation to abide by other legislation associated with this Licence and the regulations MV2012L3-0002.
- The use of water and/or deposition of waste proposed by the Applicant is of a nature contemplated by the MVRMA and the NWTWA.

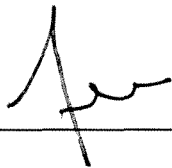

Consultation

- The MVLWB has consulted with 'Responsible Ministers' as defined under section 111 of the MVRMA and has determined that incorporating aspects of their recommendations into the permitting conditions will decrease the potential for environmental impacts.

MV2012L3-0002 contains provisions that the Board feels necessary to ensure and monitor compliance with the MVRMA and the NWTWA and the Regulations made there under and to provide appropriate safeguards in respect of the Applicant's use of the waters affected by the Licence. The Board will provide any referenced material or documents and/or reasons for decision for any specific clause or clauses contained within the application if requested to do so in writing.

Attachments: MV2012L3-0002 - CFB ASU Edmonton - Corrected Reason's for Decision and General Procedures Docs.pdf

Good day all,

Please see the attached documents. After sending the issuance's last week errors were caught in the file numbering in the Reason's for Decision and General Procedures documents. Both documents have been corrected to reflect the proper file number of MV2012L3-0002.

If you have any questions please contact our office.
